

ERRATA.

On August 14, 1913, First Called Session, the Senate adopted a simple resolution authorizing the Journal Clerk to change the date of the message from the Governor, on page 89 of the Regular Session Journal, to read "January 17, 1913," instead of "January 20," as it appears. The Journal having already been printed and this order being in the nature of a "change" instead of a "correction," this is the only method by which the correction can be made.—JOURNAL CLERK.
